## Simon Barnum

My name is Simon Barnum and I am from London, now based between London and the Canary Islands. I consider myself to be a very hardworking individual and I am just as happy working solo or as part of a team. I work well under pressure and have a very good work ethic. I am a creative who likes to push boundaries, achieve goals and create experiences that leave audiences feeling highly entertained. My experiences have allowed me to travel the world, embracing many different cultures and diversities and with this experience I implement these factors into whatever I produce. I believe I am unique in my approach and my delivery, and I look forward to collaborating with new companies in order to achieve new approaches and goals.
